

March 16, 1995

LB 461
LR 71-74, 76-79

will cover all of the resolutions so affected. Those in favor of the resolutions vote aye; those opposed to the resolutions vote no. Please record, Mr. Clerk.

ASSISTANT CLERK: 26 ayes, 0 nays on the adoption of the resolutions.

SENATOR LANDIS: The resolutions pass. Under normal circumstances we would go directly to consent calendar, but the Speaker's Office has informed the Chair that a confirmation report was left off the schedule for yesterday, and because of the need to use the individual to make a quorum, on public business, we will depart from the printed agenda to move to a Natural Resources confirmation report. And the Chair recognizes Senator Beutler.

SENATOR BEUTLER: Senator Landis, members of the Legislature, the confirmation report involves two individuals wishing to sit on the...or who have been appointed by the Governor to sit on the Nebraska Game and Parks Commission Board, that's on page 1146 of your Journal if you wanted to look at the names. It involves Mr. William R. Berryman and Mr. Daniel J. Wallen, both of whom are reported favorably to the floor, and we would recommend their appointment. I wish finally to simply say that the fact that these people are not on the agenda today is not the Speaker's Office fault, it's my fault. We had a miscommunication. But these people need to vote tomorrow at the Game and Parks meeting, and so we wanted to do everything possible to facilitate their ability to do that, and that's the reason I've asked for this special consideration and I hope it's agreeable to you. Thank you.

SENATOR LANDIS: Thank you, Senator Beutler. There are no other lights. We'll proceed directly to a vote, unless there's a closing statement by Senator Beutler. He waives for that. We'll move to the confirmation report for Natural Resources Committee. Those in favor vote aye; those opposed vote no. There are 11 not voting at this point. Please record, Mr. Clerk.

ASSISTANT CLERK: 25 ayes, 0 nays on the adoption of the report.

SENATOR LANDIS: The confirmation report is adopted. We'll move now to consent calendar. The first measure up is LB 461, and
